

Supplementary Table 2**SNP genotyping****a) details of tissues used for SNP genotyping**

	RNAseq and SNP genotype data from these samples, RNA and DNA available
	SNP genotype data from these samples, no RNAseq data, DNA available
	SNP genotype data from DNA only samples (to replace samples that failed DNA QC), RNAseq data from other tissues from same individual

HDBR embryo or fetus #	Stage of embryo or fetus	Tissue Sample ID number	tissue morphology of sample	left or right	Karyotype	time sample in transit (minutes)
11793	CS 22	HDBR375	brain fragment		46, XY	120
11849	CS 21	HDBR380	brain fragment		46, XY	120
